MINING, BUSINESS AND STOCKS

SKYLARK COPPER, BEAVER COUNTY.

Directors Call on Shareholders For Another Assessment for Development Purposes.

MCMULLEN'S STATEMENT.

Mine Workings Show Some High Grade Oxide Copper-Sulphide Ore Coming In.

The directors of the Skylark Copper company, which corporation owns a group of valuable mining claims in Beaver county, have levied an assessment of a cent a share and which becomes delinquent on March 14.

Accompanying the notice to shareholders is the following statement from President A. J. McMullen, bearing on physical and financial conditions:

"Since the levy of assessment No. 8 in April, 1904, work has been carried on at the company's property continuously with the exception of about five months. The east drift along the contact was continued 250 feet to a point under the 265-foot shaft, where an upraise connected the old with the new workings. This upraise was run in ore the same as

This upraise was run in ore the same as existed in the bottom of the old shaft and will average 4 per cent copper, with small values in gold and silver.

"Fift feet west along the drift we cut a small chute of good grade red oxida of copper which will carry 20 per cent. At this point the sulphide ore made its first appearance in the property. A winze was here sunk 30 feet, in which the ore was continuous. We were unable to continue this work at that time, it being hot weather, on acwere unable to continue this work at that time, it being hot weather, on account of the bad air. The workings now having been connected, we will be enabled to sink at least 200 feet farther, with good air, and as we have a strong body of ore at the end of the drift under the old work it is advisable to later continue sinking at that point, using the old shaft to hoist through. Drifts can be run along the contact when advisable. All conditions at this point indicate the making of a large ore body. We can sink here 100 feet without other hoisting machinery than we now have, and this additional depth will, I believe, demonstrate what may be expected of this part of the mine.

"During the time that we were unable to work in the drift, work was started on the iron chimney shown in the cut,

to work in the drift, work was started on the iron chimney shown in the cut, with which all have been provided. It was upon this ork and the surface workings that Mr. Rohlfing reported, the same herewith enclosed to all who have not had it. This work has made such a remarkable showing that it is advisable to follow it in preference to all other work, and the shaft, which is now 150 feet, will at once be driven to the 390 level. The ore shoing at the 100 was greater than was the O. K. at that level. The O. K. produced \$100,090 at the bottom of the 200-foot shaft.

"Some had conceived the idea from

the bottom of the 200-foot shait.

"Some had conceived the idea from rather highly-colored newspaper reports that we already had a mine. This is not the case, and I therefore decided on having the examination and report made by Mr. Rohlfing, who is one of the most able and conservative engineers in this region and who is himself operating two properties adjoining the Horn Silver mine.

Silver mine.
"The work was carried on last year
by stock sales, \$2,405.50 having been
realized from that source. The treasury
is now almost depleted and notice of
assessment No. 3 is here with sent out. assessment No. 9 is here with sent out. It is requested that all who can do so pay this assessment at once in full. The Ole Tipa claim is now patented, as is also the spring claim, a one-half interest in which rests in this company. The outstanding obligations which are represented by loans are \$1,783.66. Assessment No. 9 will net \$2,930 if paid in full."

MANHATTAN WAGES.

Miners' Union Arranges a Scale of Wages for New Nevada Camp.

The new camp of Manhattan, Nev. The new camp of Manhattan, Nev., has a Miners' union, and that organization has fixed a scale of wages.

The scale as adopted is s follows: Drifting, stoping and trenching, per shift, \$4.50; sinking and raising, per shift, \$5; working in wet places, 50 cents per shift extra; tool dressers and blacksmiths, per shift, \$5.50; timbermen (no helpers) \$5; machine work, 50 cents extra per shaft more than hand work. Engineers, per shift, \$5.50; all work. Fingineers, per shift, \$5.50; all contract work, \$1 per shaft more than company work. No man in or around the mines will be allowed to work more than

than eight hours.
The carpenters have decided that the scale of wages for their craft shall be \$8 per day after Feb. 1. Just new they are earning from \$10 to \$20 per day.

OFFER TURNED DOWN.

New York Swndleate Sought Foothold In Copper Mountain, Wyo. District.

Special Correspondence, Shoshone, Wyo., Jan. 25.—Further investigations in the Copper Mountain district prove them even richer than at first reported, and a New York syndieste has sought a foothold there.

The syndicate will pay the present owners every cent that they have expended thus far on the mines, they will pended thus far on the mines, they will invest \$250,000 in a company and will give the present owners 40 per cant of the stock of said company. This is vritually an offer of nearly \$300,000 for 60 per cent of the mines in the district and taking this as a basis the mines now have an actual cash value of about \$500,000.

The owners, however, have very emphatically refused the proposition, saying that more than double that amount will be offered in a few months when the true worth of the mines is fully exploited.

MAMMOTH SHAREHOLDERS.

Corporate Existence to be Extended Twenty-Five Years.

The stockholders of the Mammoth Mining company are scheduled to meet at the corporation in the Hooper building this afternoon for the purpose of considering and passing on the question of extending the corporate life of the corporation another 25 years, which can be done by amending article 3 of the articles of incorporation.

SHAWMUT COMPRESSOR.

Bingham Mine to be Seene of Active Development Campaign.

A compressor is being installed by the Shawmut, which it is expected will be in operation within a few weeks, says the Bulletin of Bingham. The Tel. Bell 792.

Local settling prices are reported by the American Smelting and Do-fining company:

SILVER. . COPPER, (casting) COPPER. (cathodes) · \$3.50@\$5

machinery was unloaded this week and is now being set up. The cleaning out and development of this property under the superintendence of F. A. Darrenougue now gives promise of a bright future, as it is believed rich ore bodies will shortly be uncovered in one of the Herbert Williams, managing director of the company, has been in Bingham for the past week looking over the property. He prophesies a great future

ORGANIZE THIS AFTERNOON. James A. Pollock Will be Re-Elected

for the company.

President of Organization. The new governing board of the Salt Lake Stock & Mining exchange will meet at 4 o'clock this afternoon for the purpose of organization. James A. Pollock will be re-elected president and undoubtedly James A. Shorten will continue as secretary with an increase

LAST CHANCE MINE.

Utah-Nevada Company Are Working Twenty-five Men There.

The Nevada-Utah Mines & Smelters corporation, which has the Last Chance mine of Bingham among its acquisi-tions in this state, is carrying on a very vigorous campaign of development at that property. A force of 25 men is given employment there and, it is un-derstood, the number is to be doubled next month.

IDAHO OPERATOR HERE.

O. F. Rebel Down From the Parker Mountain Mining District.

F. Rebel, who is operating a prop-O. F. Rebel, who is operating a property in Lemhi county, adjoining the one on Parker Mountain taken over last year by representatives of the United States Mining company, is in the city on a brief business trip. P. Rebel has kept work going steadily through the winter, notwithstanding the heavy fall of snow and the otherwise severe winter in that section.

Mr. Rebel anticipates the district will experience a very active season of deexperience a very active season of de-velopment this year.

COLUMBUS CON. SALES. Alta Stock Active During Today's Ses-

sions of Mining Exchange.

Columbus Consolidated was the feature of this forenon's session of the Salt Lake Stock & Mining exchange. There was a big demand for the stock on the open board, the stock selling up to \$4.63\(\frac{1}{2}\) per share. During the regular call, Daly, May Day and Uncle Sam Consolidated were the sellers. Except in the case of Columbus Con-solidated, the market was slow and stocks in little demand.

The closing quotations and sales were as follows:

J. OBERNDORFER.

Today's Metal Quotations. FUMPS WORKING AT MONTEZUMA.

Bingham Property is Held Under Option by a Syndicate of Salt Lakers.

SHAFT IS BEING UNWATERED.

Location in Markham Gulch-Has Produced More Than Seventy-Five Thousand Dollars.

A syndicate of Salt Lakers, consisting of Peter Porter, B. F. Kelly and A. J. Beetles, the latter chief metallurgist of the Newhouse mines, has secured a ten month's option on the Montezuma mine in Markham gulch, Bingham.

The underground workings are flooded with water and a pump has been installed. The latter is in operation and as soon as conditions will permit of it the mine will undergo thorough exam-

The Montezuma is an old producer and is said to have enriched its former owners to the extent of more than \$75,-000. None of the workings are very deep, but being favorably located the holders of the option are willing to take a chance by spending considerable amount of money in exploring it. The shaft is 150 feet deep and one-third of it is under water.

EARNED NINE THOUSAND. Bingham Consolidated's Commercial

Made This Record Last Month. The Bulletin of Bingham quotes Cap-

tain Duncan McVichie, manager of the Bngham Consolidated, as follows: "It has been a long, hard struggle," said Mr. McVichle, "to place the Bingham company in the strong position it occupies today, and the world will never know the difficulties that have arisen, been met and conquered. No matter what may come now, it can be readily shown that the properties of the company are in shape to meet any demands that may be made upon them. Why, even the old Commercial, which has never been considered as particularly valuable other than for the fluxes which it carries, earned over \$9,000 net on its own account last month. The Dalton & Lark is opening up in The Dalton & Lark is opening up in splendid shape and the Eagle & Blue Bell is doing the same. I have never for a moment doubted the ultimate outcome of the work planned long ago, but it has been a trying period through which we have had to go and patiently await the day when the work would show results. That time is here and I am glad of it."

PEERLESS GROUP SOLD.

Bullfrog Property at Bullfrog Sold for \$100,000.

One hundred thousand dollars cash One hundred thousand dollars cash was paid for the Peerless group, consisting of two full claims and a fraction and located in the Bullfrog district, last week, says the Goldfield Review. The property was owned by Judge L. O. Ray, A. M. D'Arcy and R. F. Sutherland and was sold to the United Investors company, a syndicate of New York capitalists. W. B. Gillingham, the well-known mining engineer of this camp, who examined and reported on the property, did the buyreported on the property, did the buy-ing for the eastern company,

The Peerless is considered one of the best properties in the entire Bullfrog district. It joins the Denver Bullfrog and Eclipse on the north and the same system of veins that have proven so productive for the two latter companies cut through the ground. The Peerless No. 2 butts arginst the end lines of the Denver and is within 75 feet from the shaft where ore is being sacked every day.

UNITED STATES EARNINGS.

American Smelting Competitor Making \$4,000,000, Net, Per Annum.

A leading interest in United States Smelting, Refining and Mining com-pany, says a Boston exchange, is now earning at the rate of \$4,000,000 net, per annum and has been earning at the rate of several months. These earn-ings are derived from the operation of its five mines, three smelters and a refinery.

refinery.

The payment of 7 per cent dividends upon the outstanding 419.679 shares of new preferred stock calls for the annual distribution of \$1.468.876 which is the equivalent of \$2.60 per share annually on the 561.000 shares of the United States Mining company.

Earnings of \$4.000,000 pet, per annually could be a second or \$1.000 per share annually

shares of the new common stock, equal to nearly \$9 per share, or 18 per cent upon the par value of \$50 per share.

SALT LAKER BRINGS SUIT.

H. C. Edwards of Salt Lake CV has led suit in the district court against the Old Humboldt Mining company and R. C. and James A. Blossom for \$12,-000 damages. From the complaint on file, it appears that Agnes R. Vadner held a certificate for 235,000 shares of stock in the corporation, and she dis-posed of 200,000 shares to plaintiff, who sent the certificate with a request to the Blossoms, who are officers of the cor-poration, to be cancelled, and asking for one certificate to be issued for 200,000 shares and another for 35,000, which the Blossoms have failed to do. Edwards claims the stock to be worth six cents per share, hence the \$12,000 damages. The suit has been brought through Attorney A. J. Maestretti, with Frick, Edwards & Smith of Salt Lake for counsel.—Austin (Nev.) Reveille.

GONE TO EUROPE.

J. M. Callow, the well known me-chanical and metallurgical engineer, departed today over the Oregon Short Line on a trip to Europe. Mr. Cal-Line on a trip to Europe. Mr. Callow will be gone about two months on business connected with the ore dressing devices of his own invention and which have been tried out with success in Montana and Idal camps during the past year. Idaho mining

CONCENTRATES.

The delinquent stock sales of the Madsen and lone Mining companies is

scheduled to take place today. Articles of incorporation of the United States Ozocerite company of Sal-Lake were filed in the office of the sec retary of the state last Saturday. The company has a capital stock of \$500,000, divided into shares of a par value of \$10 per share, and owns the Booster group of six claims in Utah county. Sumner B. Merrick is president; Wil-liam Lowe, vice president; John A. Vorhees, treasurer. Frank Pierce and L. H. Harding complete the board of

A party of eastern capitalists arrived in the city yesterday en route to Good Springs. Nevada, where they will be the guests of W. A. Wilson, The easterners are interested in the promotion of the Good Springs Smelting & Development company. In the party are: C. H. Raymond, wife and son of Haverhill, Mass.; C. E. McCarthy, wife and son of Haverhill; Warren W. Potter of Haverhill. Frank C. Came of Denver, Louis E. Barker of Bangor, Me.; W. A. Morton and D. D. Keating of Haverhill, who are guests at the Wilson hotel. A party of eastern capitalists arrived

LOCAL MARKETS.

Fine California snowball cauliflower is in the local markets today; also cab-bage which the wholesalers say is much better than usual. The arrival of several cars of oranges within the last two days has relieved the local stringency, which had become marked, and wholesalers and retailers are busy today supplying the trade. The supply of bananas, which had also become scarce, has been replenished by fine fat fruit. It may be remarked that oranges and bananas are cheaper than apples at present, as four apples now cost 15 cents, whereas a dozen oranges or bananas can be bought for that sum. The recent heavy rains in California have made it difficult to ship fruit and have made it difficult to ship fruit and farm produce, so the supply of such things during this week may not be as heavy as desired. The local supply of potatoes is by no means as large as it ought to be, and the retail stores have sold out their stocks, so that they are calling on the jobbers for fresh supplies. The cold weather is against opening pits by the growers. Eggs are falling in price, as the home producers have forced up the price so that Kansas and Oklahoma commission men have begun shipping in here at a pretty liveand Oklahoma commission men have begun shi, ping in here at a pretty live-ly rate, and the imported eggs are equal to Utah's best. The wholesale price has therefore dropped a dollar for the home eggs, with fresh eastern eggs sell-ing 50 cents beneath that figure. The prices obtaining in today's local mar-kets are as follows:

KILLED ADVANCES

Market Was Not Strong Enough to Hold Out Against

It.

READING THE MAIN FEATURE.

Its Fluctuations Either Way Soon Reflected by General List-Bonds Were Steady.

New York, Jan. 29 .- Early depression in nfluential stocks such as St. Paul, Umon Pacific and Reading was overcome and when the leaders were bid up a point or more beyond Saturday's closing the general market also rose with unanimity. Other conspicuously strong feaures for a time comprised Sugar, Amaigamated Copper, Colorado Fuel and Locomotive. The market did not hold its strength long as such advances as had occurred were obliterated when the profit taking commenced. These ranged from 6 points in international Power to 14 in Colorado Fuel and about a point in the others referred to. Some stocks were forced under last week's close, Northern Pacific closing 1½, American ice 1½ and St. Louis Southwestern, Atlantic Coast Line and Wheeling & Lake Erie 1. Reading rebounded nearly 2 points before 1 lo'clock.

The fluctuations in Reading were reflected to some extent in the general market. That stock reacted to near Saturday's level and their rose again to the best and the rising tendency became more general. Rock island rose 1½, the preferred 2½. St. L. & S. F. second preferred 2½. International Power 10. Anaconda 5, Havanna Electric preferred 3½ and Amalgamated 1½. Losses in Kansas & Texas, Delaware & Hudson and Sloss Steel ran to 1½, and C. & O., Great Northern preferred. Cotton Oil, Smelting, General Electric and Republic Steel 1. The buying subsided again.

Bonds were steady at noon. literated when the profit taking com-

tric and Republic Steel I. The buying subsided again.

Bonds were steady at noon.

Operations were largely nominal in the general market. The chief speculative interest centering in two or three stocks, such as Reading. Union Pacific and Amalgamated Copper. The first named reached 183% after midday but the remainder of the leading stocks were not materially altered. International Power jumped 20 points, Michigan Central 144, C. C. C. & St. L. 114 and New York, Chicago & St. Louis I.

Louis I.

The sluggishnes of the general list during the day and the pronounced heaviness of a few important stocks caused selling in the afternoon and advances in Reading, Union Pacific and some of the specialities.

SHIPPING RABBITS. A New Industry Springs up in the

Wilds of Western Idaho.

Several parties are experimenting on shipping rabbits to the eastern markets. says the Idaho Falls Post. A large number of those killed in the last few drives were purchased at three cents each and were sent out. One party informs the Post that he made a shipment of 7,000 from Market Lake, the ment of 7,000 from Market Lake, the car being plentifully labeled and consigned to the Chicago market. He paid out over \$250 at the price quoted, and every youngster in the section had a little spending money. A large number were potted with shot guns, the plan being to coax rabbits to feeding in a line by scattering a narrow strip of hay or leaves and when they were lined up or leaves, and when they were lined up the gun was turned loose. Six or eight is an ordinary bag for one shot, and the number has run as high as 17. This sounds rather doubtful to an outsider and he rarely grasps the statement that 17 jackrabbits have been killed with one shot, but it is a fact, nevertheless. And there are a few left.—Fremont County News.

SPEAKS TO WAITERS.

Rev. C. J. Bell Describes Their Condition in World Beyond.

Rev. C. J. Bell of the A. M. E. church preached to the hotel waiters last even-

PRODUCE.

CHICAGO.

Chicago, Jan. 29.—An unexpected large
increase in the world's shipments of
wheat caused a weak market here today. The initial quotations on May were
fings were readily taken by commission
houses and the market became steadled,
May advancing to 84%.

Minneapolis, Duiuth and Chicago reported receipts of 614 cars against 501 a
year ago.

The corn market was quite weak because of liberal sales by commission
houses and cash interests and the weak

IN CASH

COLLECTED

IN 1905.

This is the largest year we

have had. It was an in-

crease of \$15,752.80 over

1904. All of this money

was collected from Bad

Debts.

This year, we will collect over \$100,000.00. We want

you to help. If you turn in your Bad Debts, both you and

we, will make money. If you do not turn them in, both of

will lose money. If you are in doubt, write or see us, and

we will dispel your fears. What we are doing for others, we

We pay out more money for advertising than any Collection Agency in the world. If we did not know we could col-

lect your Bad Debts, we would not be spending thousands of
